

## **Values and Responsible relationship**

Under the School Health and Wellness Program, an initiative of CBSE, an engaging activity on the topic "**Values and Responsible Relationships**" was conducted.

Students creatively expressed their understanding of core values by designing "**Trees of Values**". Each student crafted a tree, where the roots symbolized strong moral foundations, the trunk represented personal growth, and the leaves showcased essential values such as honesty, kindness, respect, responsibility, and empathy.

Through this activity, students reflected on the significance of values in building meaningful and responsible relationships. It fostered self-awareness, moral thinking, and the importance of mutual respect in daily interactions. The initiative successfully
